# Installation

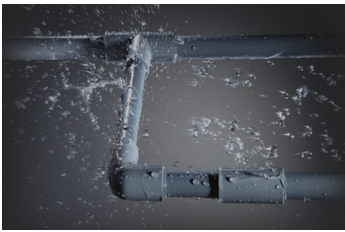

We use [Thermaflex insulation](#) which is environmentally friendly, durable and fireproof.

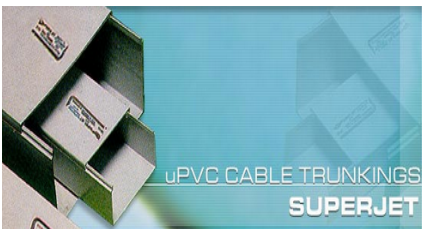

[LHCT copper pipes](#) from Thailand. Not those china-piang pipes. Because its from Thailand, their website is in Thai. But hey, there is always google translate!

[Keystone Cables](#), to power your systems. Environmental and Safe.

With PVC pipes from [Litaflex](#) for your drainage system.

All concealed using [Superjet](#) trunking.

With all this branded hardware, you can be assured that your air-con system is fully optimized.
